

DAMAGE SUIT  
NOW ON TRIAL

Case of Mrs. Milam Against Messrs. Bloomfield and Barnes in Circuit Court.

The trial of the case of Mrs. Milam vs. Messrs. Bloomfield and Barnes consumed the entire morning Tuesday in the Clark Circuit Court and will probably extend over to Wednesday. The defense has not yet finished their evidence. Mrs. Milam is suing for \$10,000 and alleges that in taking up a fence in the rear of her residence they left a post hole open into which she fell, breaking her leg causing damages to this amount.

BLIND MAN CHARGED  
WITH CARRYING PISTOL

Judge Young Has His First Case of the Kind and Discharges Accused.

MT. STERLING, Ky., April 13.—The April term of the Montgomery Circuit Court convened here yesterday with Judge Allie W. Young on the bench and Commonwealth's Attorney Alex Conner ready for duty. The grand jury is composed of Rankin R. Whitsitt, foreman; N. M. Boone, Hugh Posley, John Lee, Charles Hazelrigg, A. L. Tipton, Ollie McCormick, Ewell Payne, Clay Fogg, James W. Horr, Will Thompson and S. Webb Gaitskill. Judge Young made a brief charge to the jury, touching on the violations of the law.

The petit jury is composed of Frank C. Laughlin, Jeff Cooper, T. J. Thomas, James K. Denton, John M. Barnes, J. M. Privatt, J. M. McCormick, R. D. Parsons, Mose H. Lewis, John T. Woodford, Earl Imesberry, J. J. Walsh, Owen F. Morris, Alvin Myers, George W. Anderson, J. T. Ricketts, Tandy Chenault, Ben F. Wyatt, George W. Denton, A. B. Setters, Asa Bean and James Kelkar.

A young man named Watkins, who was totally blind, was before the court on the charge of carrying a pistol. Judge Young stated that that was the first time since he had been on the bench that a blind man had ever been brought before him on the charge of carrying a pistol, and after a lecture, upon the agreement of the prisoner never to again carry a weapon, Watkins was discharged.

Court adjourned until Tuesday, when the trial of John Hawkins for murder will be entered into. The case has been on the docket for years.

**Payment For Equity Growers.**  
County Secretary Emmet Y. Nelson will pay out this week to Equity tobacco growers of Montgomery county, \$10,000, leaving a balance of about \$15,000 yet due. Mr. Nelson has already paid to the growers about \$91,500 and when the last payment is made it will be about \$118,000 which has been paid here by Mr. Nelson. This amount grown here which was commingled with the Clark county.

TWO WOMEN CUT IN  
A FIGHT OVER WHISKEYOne of Them Reported Dying and  
Her Son and Three Other  
Men Injured.

OWINGSVILLE, Ky., April 13.—In a cutting affray that occurred at the home of Mrs. Mary Cline, about five miles east of Owingsville yesterday afternoon in which Mrs. Cline, her daughter, Miss Susan, and her son, Jack Cline, and Richard and John Mayes, were the participants, Mrs. Cline and Richard Mayes were fatally stabbed and were reported to be dying at 10 o'clock tonight. The others were severely cut and are said to be in a critical condition.

The trouble arose in a quarrel, in which the boys engaged over the ownership of some moonshine whisky, and Mrs. Cline and her daughter interfered, taking sides with the son and brother.

Mrs. Cline is 60 years of age. The trouble occurred in one of the strongest local option territories in Eastern Kentucky.

BASEBALL MEN  
BEGIN PRACTISE

Local Team Starts at Garner's Park to Get Ready For Opening Game.

The first practice on the home grounds was done by the local team Monday afternoon. The team went out in the morning and inspected the grounds and went out for a little real practice in the afternoon. The boys seem to be in good shape. All seemed to like their new home and are getting acquainted with the fans pretty well. Tuesday was a rainy day and they did not get to put in any practice, but just as soon as the weather clears up, manager Horn will get them to work. Some are a little too heavy and will begin to reduce their weight by taking long runs and dieting. Ellis and Toney are the heaviest men on the team, Ellis weighing 180 pounds and Toney a little more than Ellis.

Arrangements were made Tuesday morning for an exhibition game with the Cincinnati Colts, Monday, April 19th. This team is owned by the Cincinnati National League team and some of the men who will play here will be in the ranks of the Reds before the season has closed. This team has defeated the Reds three games, tied them once and lost to them three times, in exhibition games this season. They are on a tour and defeated the Evansville team Monday. While in Kentucky they will play at Lexington and other towns in Central Kentucky. If Gus Powers arrives in time, manager Horn will probably put him in the box for this game.

**RAIDS ON HENHOUSE  
STOPPED BY SHOTGUN**  
Richmond Editor's Brother Fires on Two Negroes, But They Escape.

RICHMOND, Ky., April 13.—Two unknown negro men with a gang of others who entered the poultry house of Emmitt Miller, a well to do farmer, here last night, were wounded with a shotgun by Mr. Miller. The two wounded men were spirited away by their companions and as yet have not been located by officers. Streams of blood were traced several yards from the house where it is believed they entered a conveyance and made their escape. Mr. Miller, who is a brother of A. D. Miller, editor and publisher of the Richmond Climax, has been troubled for some time by chicken thieves. This probably will end the raids on his henhouse.

PRESBYTERY

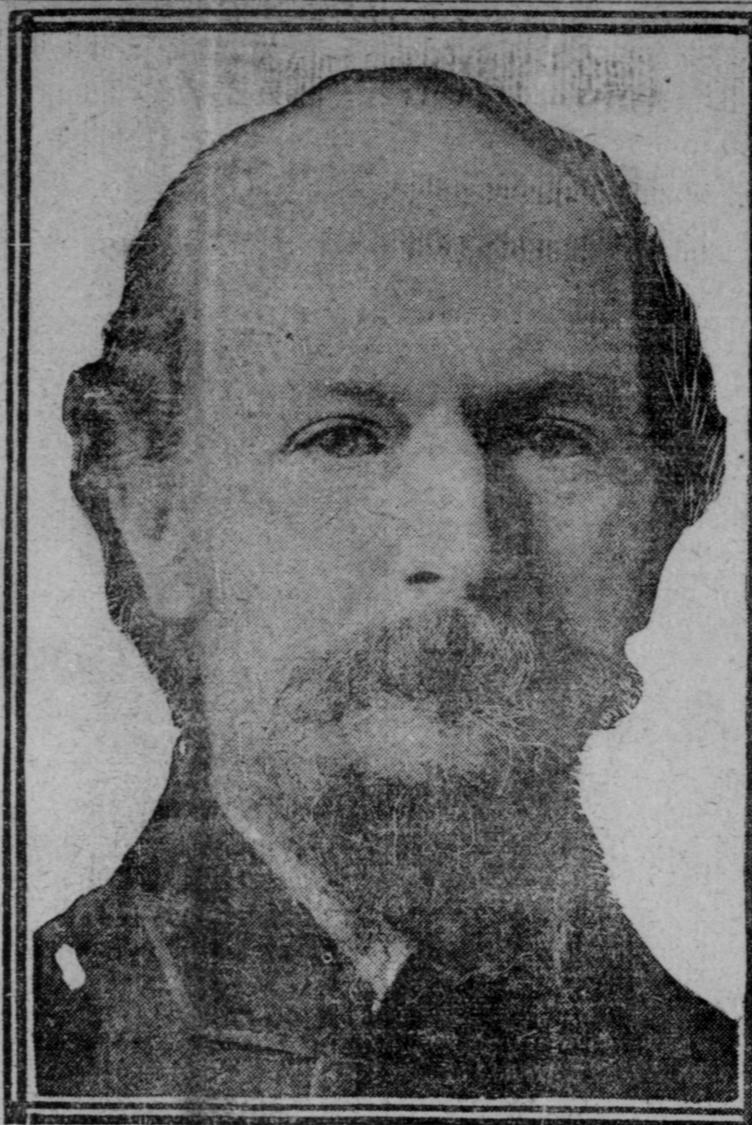

Convenes in Washington Street Presbyterian Church Tuesday Night.

Delegates have begun to arrive for the convention of the Ebenezer Presbytery, U. S. A., which convenes Tuesday night at the Washington Street Presbyterian church. The opening sermon will be preached Tuesday night at 7:30 by the present moderator, Rev. T. C. Keer, of Falmouth, after which the Presbytery will be constituted and a new moderator elected. The convention will get down to business Wednesday morning. The convention will be in session two days and about one hundred delegates will be here.

FORMER COMRADES  
IN SHOOTING AFFRAY

Deputy Sheriff Kills Man With Whom He Had Quarreled While Both Were Drinking.

HINDMAN, Ky., April 13.—Last Friday evening Thomas Hays, a deputy sheriff shot and killed Alex Thacker, two miles below this place. Both Hays and Thacker had been drinking for two weeks, when Hays procured a steel ball gun and hunting up Thacker at his home, fired a ball into his abdomen. Thacker died early Saturday morning. Hays promptly gave himself up to the authorities. Both men formerly served in the United States Army.

ALGERNON CHARLES SWINBURNE, NOTED POET, WHO IS DEAD

The late Algernon Charles Swinburne was born in London on April 5, 1837. His father was Admiral Swinburne and his mother a daughter of the Earl of Ashburnham. He was educated at Oxford and did his first literary work of any note while sojourning in Italy, where he went after leaving college. His first book, entitled "Poems and Ballads," was published in 1863.

SUNDAY SCHOOL  
CONVENTION

Executive Committee Meets, But Does Not Definitely Decide on Day For the Summer Meeting.

The Executive Committee of the Clark County Sunday School Association met in the Methodist church Monday for the purpose of formulating plans for the Sunday School Convention of all the churches of the county to be held sometime in the summer. The committee discussed the matter fully, but did not fix the day for the convention. That will be determined upon at a later meeting.

## STATE TAX COMMISSION.

Open Meeting Will Be Held on the 24th of This Month.

FRANKFORT, Ky., April 13.—Secretary W. B. O'Connell, of the State Tax Commission, today sent out notices for an open meeting of the body to be held at Louisville, April 24. It is the purpose of the commission to meet during the summer at Paducah, Owensboro, Bowling Green, Lexington and possibly some point in Eastern Kentucky for open discussion and to arouse interest in tax reforms.

They comprise in all, sixty separate exhibits, among which are the original indictment against for treason, the bench warrant issued by Chief Justice John Marshall, the affidavit of Aaron Burr requiring the letter from General Wilkinson to the President, dated November 12, 1806, to be produced as well as the memorandum of the court for the subpoena duces tecum to Thomas Jefferson requiring him to produce certain correspondence.

The documents will be given a prominent place in the display to be made at Seattle by the Department of Justice.

SENATORS WIN

## CROWD BREAKS RECORD

Many Persons Prominent in Official and Diplomatic Circles Witness Contest—Engle's One-Handed Catch of Fly Was Fielding Feature of the Game—More Than Thirty Thousand Fans Pay to See Philadelphia Trim Boston 8 to 1.

Washington, April 13.—The American league season was opened in a game between the Washington and New York clubs before what was said to be the largest crowd that has ever turned out in this city, there being 15,000 paid admissions. The stands were packed to their limit, while the overflowing crowds completely encircled the outfield a dozen deep. Many prominent people of official and diplomatic circles were present.

Washington, April 13.—Assistant Secretary of the Treasury Coolidge, in speaking of customs, in regard to revenue and other treasury receipts and of expenditures this year, said the daily deficit is steadily diminishing. He said:

"The daily average receipts from customs from Jan. 1 to April 10 were \$1,071,861. This is nearly up to the average of the corresponding period of 1907, which was \$1,144,657. The average for the corresponding period of 1908 was only \$890,072. The returns from internal revenue have not been so favorable. The average daily receipts since Jan. 1 have been \$750,223 as against \$773,078 for the corresponding period of 1908 and \$853,320 for the corresponding period of 1907. The average daily total receipts from all sources have been \$2,007,889, as against \$1,897,134 in 1908 and \$2,198,577 in 1907. The average daily total expenditure has been \$2,203,800, as against \$2,266,400 in 1908 and \$1,855,500 in 1907. The daily deficit has continued to diminish steadily. The average daily deficit since July 1, 1908, has been \$374,900. Since Jan. 1, 1909, it has been \$295,900. Since Feb. 10, 1909, it has been \$115,700. Since March 10, 1909, it has been \$63,200. Since April 1 the average daily surplus has been \$63,959."

"If the average daily deficit since Feb. 10, when the improvement in customs receipts began to be noticeable, should continue until June 30, the total deficit for the fiscal year will be \$96,837,170, as against the deficit of \$114,000,000 estimated at the beginning of the last session of congress, while if the average since March 10 continues, the total at the end of the fiscal year will be \$93,203,082."

## THIRTY HURT IN CRASH

Ten of Number Are Severely Injured When Traction Cars Collide.

Gary, Ind., April 13.—Ten men seriously injured and a score hurt in a head-on collision on Chicago, Lake Shore &amp; South Bend interurban line, two miles west of Gary. But one passenger on the eastbound car, which contained 20 people, escaped without injury of some kind.

The crash came as the eastbound car was running down grade at high speed from the elevated crossing over the Joliet cut-off. The front ends of the two cars were telescoped when they struck. Most of the male passengers were crowded in the smoking sections, back of the motorman, and it is here the most serious injuries resulted.

The third inning Washington scored its fourth and final run, the result of singles by Delehanty and Conroy and Street's long fly.

New York's lonesome tally developed in the fourth inning. Elbert led off with a clean double into center and Engle got a base on balls. Ward moved both men up with a sacrifice and on Ball's out, short to first, Elbert crossed the plate. Score:

R. H. E.  
Washington ... 3 0 1 0 0 0 0 0 0 4 8 1  
New York ... 0 0 0 1 0 0 0 0 0 1 4 3  
Batteries—Smith and Street; Newton, Brockett and Kleinow.

## PEOPLE TURNED AWAY

Philadelphia Season Opens With Record-Breaking Crowd.

Philadelphia, April 13.—The American league season was opened with the largest crowd that ever witnessed a baseball game in this city—30,162 paying for admission, while nearly 1,000 more were present as guests of the clubs. The occasion marked the opening of Shibe park, the new half-million dollar home of the Philadelphia American league club. So great was the rush for the park that the gates were closed one hour before play started, and thousands of persons were turned away. After the parade across the field, which was led by President Johnson of the American league, President B. F. Shibe of the Philadelphia club, President John L. Taylor of the Boston club and W. O. Hanley of Chicago, and the flag-raising, Mayor Reyburn tossed out the ball and Umpire Hurst announced that the game was on.

Philadelphia outplayed Boston, both in pitching and at the bat. Plank was in grand condition and held Boston to six hits. Boston's pitchers were batted hard and nearly all the hits off them were bunched. Arlanes was taken out in the seventh inning, after 11 hits had been made off him. Ryan, who took his place, was very wild, and he was also touched up for two hits. The score:

R. H. E.  
Philadelphia ... 1 0 2 0 1 0 1 3 ... 8 18 2  
Boston ... 0 0 0 0 0 1 0 0 0 0 1 6  
Batteries—Plank and Powers; Arlanes, Ryan and Carrigan.

**SAFE DRINKING.**

Prof. Munsterberg defends the moderate use of alcoholic drinks as safe. Unfortunately we are not a moderate nation and the tendency everywhere is to excess, whether in pleasure or in serious pursuits, in college sports or the accumulation of swollen fortunes. We are immoderate even in our prohibition laws. If the golden mean were the American rule of life there would be no drink evil to curb and half the existing legislation would become a dead letter on the statute books.

What President Eliot said in his statements at the Massachusetts conference of no-license workers which Prof. Munsterberg seeks to controvert was with regard to alcohol in its relation to efficiency of labor—that "even the moderate drinking of alcohol is inexpedient and that men exposed to cold, heat or hardship are better prepared for such encounter by alcohol."

This is the testimony of mountain men and polar explorers. So long ago as 1837 Richard Henry Dana, Jr., returning around the Horn in a Boston "temperance" ship, noted the preference of sailors for hot coffee over grog as a stimulant after exposure aloft. Alcohol in moderation may be safe in ordinary conditions of work, but it is a false pretense for sustained endeavor or in occupations calling for severe effort.

**COMMERCIAL CLUB.**

The committee in regard to membership in the Commercial Club is meeting with fair success, but some of our citizens who should renew their membership, have failed to do so. This should not be the case. One of the chief factors in the progress of our city, which has made Winchester the wonder and admiration of the State, has been the Commercial Club. What our business men could not do as individuals has been done collectively by the Commercial Club.

If a stranger has a proposition to make to our business men it would be useless for him to hint them up one at a time and talk to them, for he would know nothing when he was through. But he can lay his plans before the Commercial Club with some prospect for action.

A large portion of the enterprises in our city were promoted in a greater or less degree by the Commercial Club. The rebuilding of Kentucky Wesleyan College, the Casting Company, the location of Burley headquarters and many other things are direct results of the Club's work.

The growth and increased wealth of Winchester inures to the benefit of its citizens, so should each one be

willing to bear his part of the burden. The officers and members of the committees give freely of their time and work, counting themselves repaid by the good that comes to the city, and surely others can spare the meager sum required as dues to help the good work along.

Let every man in Winchester enroll himself with these public spirited citizens and do what he can to help the good work along.—Winchester Democrat.

**A SENSATION IN DIAMONDS.**

There appears to be a call for reorganization of the Diamond Trust if the countless gems worn or hoarded or for sale the world over are not to be reduced in their value to that of so many quartz crystals. And this situation grows out of the fact of repetition of the history of discovery. During the hundred and forty-three years from 1728 to 1871 Brazil was the great diamond-producing country. Then came Africa, with its wonderful Kimberley and other districts, and an output in thirty-eight years of seven hundred millions of dollars worth, more or less. And now comes back to his home in New York from a visit to Brazil diamond merchant and expert, who has large interests in the State of Minas Geraes, that country, confirming the astonishing reports given out by the Bulletin of the International Bureau of the Americas Republics. Along the headwaters of the Rio Jaquitinhunha, or Diamond River, seems to be the center of the wonderful fields discovered and being rapidly developed, with headquarters in the town of Diamantina. These diamonds are said to be in the average the purest ever found. They are taken from beds of streams at low water and from alluvial surface soil, with no necessity for deep and costly excavation, as at the Kimberley mines. And along with the diamonds are found in the really golden suds untold riches in gold and platinum. Also, the black carbonado, or "ports," the most valuable production of the earth for boring and drilling purposes. In one year carbonado to the value of \$4,500,000 has been shipped from the port of Bahia, to serve the world in cutting, boring and drilling. This New York merchant remarked to an interviewer: "There are too many diamonds and too many small companies operating. Unless there is some measure taken to consolidate these interests and control the output diamonds will soon be as cheap as quartz crystals. The bed of the Rio Jaquitinhunha contains the washings of centuries of the mountains and of plateaus rich with precious and semi-precious stones and gold and platinum. The diamonds found are worth forty to sixty percent more than the Kimberley gems, because of their greater hardness. On this ship I am bringing home thirty-six sacks of sand which an assay will show contains gold and platinum in unheard-of quantities."

Other samples of these sands have assayed as high as \$3,000 per ton in gold and \$5,000 in platinum in the United States Assay Office.

This Rio Jaquitinhunha empties into the Atlantic at Belmonte. It is only 350 miles long. The center of the precious fields is about 490 miles north of Rio de Janeiro.

**PLAYERS OF  
LOCAL LEAGUE**

Names of Men Who Have Been Signed to Play in Blue Grass League.

The Winchester Baseball team enters on this its first complete season as a member of the Blue Grass League with high hopes of carrying off the pennant. Thorough preparation has been made and a complete team of tried players has been signed.

The baseball grounds at Garner's Park are being improved and the grand stand repaired. With the improvement contemplated Winchester will have as good grounds as any in the league. The practicing in Winchester begins this week and the first game of the season will be played April 27 with Paris at Winchester.

The team will be under the mana-

gement of Newton Horn. The team is as follows:

Catcher and Manager, Newton Horn, of Nashville Tenn.; Left Field Oscar Schmidt, of Nashville, Tenn.; Second base and pitcher, Henry Schmidt, of Nashville Tenn.; Second base, Charles Krause, of Detroit, Mich.; Infelder, Tony Catiganni, of Nashville, Tenn.; Short Stop, Allen Ingels, of Millersburg, Ky.; Infield, James Dickerson, of Salt Liek, Ky.; Pitcher, Herndon Wills, of Stanton, Ky.; Pitcher, Fred Toney, of Nashville Tenn.; Outfielder, Tony Wyatt, of Mt. Sterling, Ky.

Negotiations are also on with Proctor, last year's Southpaw. Horn is also in correspondence with three crack jack pitchers and hopes to land some of them.

The players signed in the other teams of the league are as follows:

## SOCIETY

If you've a tender message or a loving word to say, Don't wait till you forget it, but whisper it to-day, We live but in the present, the future is unknown— Tomorrow is a mystery, today is all our own.

The tender words unspoken, the letter never sent, The long forgotten messages, the wealth of love unspent— For these some hearts are breaking, for these some loved ones wait So show them that you care for them before it is too late.

### Sashes.

The sash reigns triumphant. It has suddenly become an all important factor in dress. When the Parisian dressmakers first introduced the fashion of the sash it was generally thought that its reign would be brief and most of our American dressmakers advised their clients against it, pointing out that there was considerable art in wearing a sash gracefully. Nevertheless the sash is still a significant note of fashion, not only on visiting toilettes and evening gowns swathed around with soft folds of silk or ribbon hanging in long, graceful ends at the side, but the sash has also made its appearance on the tailor made gowns. Of course, the sash is seen to most advantage on slim figures. As a means of freshening up last season's gown the sash is simply invaluable to the home dressmaker.

### Veils.

Wide veils are now the most fashionable. Incidentally they are most comfortable and practical, for they cover the face, hair and neck, keep the hat on, protect from dust and wind and as, protect the large coiffure.

Thin veils are the most popular material. Some are shown with square woven dots and are the most fashionable for the season. Others are plain and some have small round dots. They come in three yard lengths, and will cover any of the large hats. There is one inch hem to give them body and character. They are worn full beneath the

### chin.

They are often caught beneath the ear or with a knot or loose ends of ribbon. Black is the height of fashion, mouse grey and brown are also favored. It is also smart to have the veil match the gown.

### School Entertainment.

### OPERA HOUSE

Lyman H. Howe.

The magnitude of the havoc caused by the earthquake in Sicily can only be realized after seeing Lyman H. Howe's remarkable reproduction at the opera house on Monday next. Beautiful Messina with its stately streets, busy waterfront, and palatial buildings, will be shown just as it was before the great earthquake that transformed the city into a hopeless ruin. The pictures take the audience through the devastated streets lined everywhere merely with fragments of buildings. What relief work is being done, and how it is done, is also depicted. The grim realities may be seen in the desperate efforts made to succor the wounded, and the number of refugees mournfully seeking a way of escape from their once beautiful city. The pictures are so true and real that they appeal to the sympathy of every spectator. They are truly historic pictures because they reveal historic scenes and also because they are the best and most comprehensive ever secured so quickly of a momentous event.

### STATE'S ROAD WORK.

Connecticut Will Build Trunk Roads on a Uniform Plan.

Even a year ago the proposition to bond the state of Connecticut for \$5,000,000 or \$6,000,000 in order to build good roads would have been regarded as visionary. While the automobile would have been glad of the roads which would result from such a course, it is doubtful if even they would have looked upon such a plan as other than a little too ambitious to go through, and the farmers wouldn't have considered it for a moment. Now the situation has so changed that the farmers are actually asking the committee to report a good sized bond issue to be available for improved roads at about a million a year, writes a New Haven correspondent of the Boston Transcript.

Connecticut has done much toward acquiring good roads as a state, and yet it is the fact that the state has no system of good roads today worthy the name, and while there are stretches of road in different sections which have been well built and built to last in a general way the expenditure of money does not show.

The basis of the new plan which seems likely to receive the support of the general assembly consists in the state's taking over absolutely all trunk roads. The state will be entirely responsible for these roads, and with an appropriation of a million a year it won't be long before Connecticut will have a state wide network of first class roads. Certain concessions in the matter of choosing the road to be improved will be made to the local authorities, but it must be a trunk road.

The state will go into the roadmaking business on a large scale, will have its own trap rock quarries or take the entire output of private quarries, will have its own stone crushers and all the other necessities for successful roadmaking, will employ its own foremen and inspectors and will go at the whole business on a uniform plan. Not the least of the benefits of the scheme will be the fact that the towns will have their own road appropriations intact to spend on roads leading to the trunk lines improved by the state. It is proposed to bring the highway commissioner into even closer touch with the automobileists by giving him an auto in which to travel from town to town overseeing the road building. And, incidentally, all the taxes on autos coming to the state will be spent on good roads, in addition to the proceeds from the bond issue.

### Plan of Farmers to Build Roads.

A number of prominent farmers of Charles township, in Clark county, have originated a plan for the building of free gravel roads proposed in that township, says a Jeffersonville (Ind.) correspondent of the St. Louis Post-Dispatch. The bids submitted for the work were so high that the farmers decided to have the work done under their own supervision, thus being assured that it would be done satisfactorily, and save to themselves the profit that ordinarily goes to the contractor. Should this plan work out successfully, as it is believed it will, the residents of other townships in Clark county will adopt it. As far as is known at Jeffersonville, this will be the first time such a plan was ever tried in Indiana.

**Need of Better Country Roads.**  
At a meeting of the chamber of commerce, Jamestown, N. Y., Luis Jackson, industrial commissioner of the Erie railroad, recently spoke on the great physical improvements in every line of industry and referred particularly to the cost of hauling crops by teams from farms to railroad stations. Mr. Jackson gave facts and figures along this line secured from data published by the department of agriculture, by which he showed that the average cost of team haul on twenty-three different kinds of agricultural products was 11 cents per 100 pounds, and the average cost per ton mile 23 cents. These figures he thought emphasized the necessity for better roads.

### Rural Delivery Notes

Rural Mail Carrier B. S. Johns of Lorain, O., carrier on route No. 1 west, has received a powerful motorcycle for use on his route, says the Columbus Dispatch. It is said that Johns is the first to use a motorcycle in the delivery of mail on country routes, and if the experiment proves a success, carriers all over Ohio may take up the idea, as it is much cheaper to use a horse, after the first cost. Johns has some of the roughest roads in the Lorain section to cover and his route extends some twenty-five miles. In a test run he covered the territory and delivered his usual amount of mail matter in an hour's less time than formerly. He expects to cut this down a half hour more when he becomes thoroughly familiar with his machine.

The rural mail service has developed into a regular matrimonial bureau, according to a Washington dispatch to the St. Paul Pioneer Press. It is estimated that more than 100 rural carriers are married weekly, and in 50 per cent of the cases the contracting parties are brought together on the rural routes.

Boise, Idaho, now claims the distinction of employing more women rural carriers than any other postoffice, three out of four routes from that city being served by women. Miss Mollie Stewart, who delivers route No. 2, is said to be the champion bronco rider of the northwest. The postmaster at Boise is enthusiastic over the work of the women carriers, who, he says, are very particular and faithful and popular with the patrons.

### DIRECTORY.

#### Kentucky.

According to the last census Kentucky has a population of 2,147,174.

The area is 49,400 square miles; 400 of which is water. The streams within the State, as a rule head in the Southeast and flow in a Northwesterly direction; this fact retarded the construction of railroads and the development of our resources for many years.

The early railroads were built from the East and went over the more level territories North of the Ohio River and South of the Cumberland Mountains. In those days there was only a limited demand for coal and lumber. Now that the demand has increased, it would seem that kind providence has held in reserve our almost inexhaustible utilities until a time when they are most needed by the country. Our supply of timber is limited, but there is enough to last for many years to come.

We have a coal area of over fifteen thousand square miles. Other mineral resources are being developed in many localities.

There are no more bad people in Kentucky than in other States in proportion to population. Good people regardless of politics or religion, are always welcome.

Blue Grass is a natural product. Uncultivated land will set itself in blue grass. Crops of timothy and clover can be raised with profit. Corn, wheat, rye and oats are the grain crops. Tobacco is raised in large quantities.

#### Clark County.

Land acres, 158,176.

Value of real and personal property including franchises, \$12,004,870.

Tax rate for all county purposes, 50 cents, on the hundred dollars.

The foothills of the mountains are on the Eastern border of the county, the Kentucky River on the South, forms the county line for a distance of twenty-five miles. Ford on the river. South of Winchester, has extensive lumber mills.

Three railroads go entirely across the county—Chesapeake & Ohio, Louisville & Nashville and Lexington.

All fruits that are adapted to the climate can be raised with profit.

The census of 1900 gave the population at 16,631.

#### REMEMBER JEFFERSON

##### Democratic Leaders Attend Birthday Anniversary Banquet.

New York, April 13.—Most of the Democratic leaders of New York city and state, with distinguished guests of the same political faith from other sections of the country, will assemble tonight to do honor to the memory of Thomas Jefferson. Today is the one hundred and sixty-sixth anniversary of the birth of the author of the Declaration of Independence. The anniversary is celebrated each year by the Democratic club of this city with a banquet at which addresses expounding Democratic doctrine are delivered.

Tonight's speakers in the Hotel Savoy will be Governor Harmon, who will talk on "The Rights of States;" Governor Marshall of Indiana, whose topic will be "Remove Not the Ancient Landmarks," and State Senator Thomas A. Grady on "Thomas Jefferson." It was announced some time ago that Champ Clark, leader of the Democrats in the house of representatives, would speak on "The Issues of the Day," but Mr. Clark later declared that he would be unable to attend the banquet.

Richard Croker, former leader of Tammany Hall, who is to sail soon for Ireland, will act as chairman of the reception committee. More than 450 diners will sit down at the banquet.

##### Hotel Burns, Guest Dead.

Bowie, Tex., April 13.—Fire destroyed the Dudley hotel. James Thompson, a horse trader of Wichita Falls, Tex., was burned to death. Charles R. Rowe was seriously burned. Loss about \$25,000.

#### RAILWAY EARNINGS SHOW HEAVY SLUMP

#### Interstate Commission's Report Is Low by Many Millions.

Chicago, April 13.—An advance abstract of statistics of American railroads for the year ending June 30, 1908, as compiled by the bureau of railway news and statistics, was made public by Slason Thompson, manager of the bureau. The report says:

"Instead of a decrease of only \$164,564,941 in gross earnings as the result of the 'temporary financial depression' of 1907-08, as set forth in the preliminary income report of the interstate commerce commission for the year ending June 30, 1908, the panic of 1907 resulted in a loss of over \$300,000,000.

"The loss in net earnings is shown to have been \$129,540,460 instead of \$111,051,006, as given in the commission's statement. The 2-cent passenger fare legislation caused a loss of \$25,000,000 in gross earnings, although more passengers were carried. This is accounted for by a reduction in average receipts per passenger per mile on 94 per cent of the mileage from 2.014 cents in 1907 to 1.932 in 1908.

"The heavy loss in net earnings is partly accounted for by the expenditure of approximately \$32,000,000 necessitated by arbitrary innovations in accounting methods and requirements in regard to the hours and conditions of labor of certain classes of employees."

#### KAUFMAN VS. ROSS

##### Well-Known Heavyweights Will Box In New York Tonight.

New York, April 13.—The sports will have an opportunity tonight of seeing in action two good heavyweight scrapers. They are Al Kaufman of California and Tony Ross of Pittsburgh, who are scheduled to go ten rounds before one of the local sporting clubs.

Kaufman has championship ideas and is credited with a desire to fight Jack Johnson in spite of Jeffries' statement that Kaufman "couldn't lick a postage stamp." Ross recently beat Jim Barry and has shown much improvement during the past year.

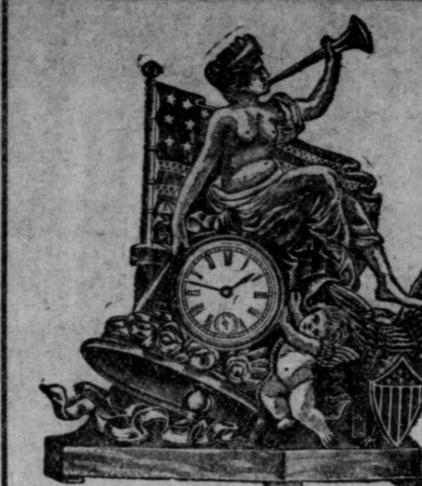

**Gompers Arranges Conference.**  
Washington, April 13.—President Gompers of the American Federation of Labor has arranged for an important labor conference at the White House next Friday afternoon, when matters affecting the interests of organized labor will be discussed between President Taft and the members of the executive council of the American Federation of Labor.

### MONEY BACK OFFER.

Mi-o-na Quickly Cures Belching Sour Stomach, Foul Breath, Stomach Distress or Money Back.

Stop your indigestion right away; you can do it if you will.

Go to Phillips Drug Store today and get a box of Mi-o-na tablets. Take one before, with or after meals for a few days and note the wonderful result.

In a week you can eat and enjoy any food you want without after disturbance, in two weeks you will feel like a new being.

Careful women who want to have and keep a good complexion, rosy cheeks, and bright eyes, should try Mi-o-na, acting as it does on the stomach it is the great preventive of materialy advanced. The increase in wines and spirits is expected to bring in about \$3,000,000 additional revenue. Senator Aldrich stated that the committee realizes that the increases thus far recommended will not be sufficient to counterbalance the loss in revenues that will result from the reductions and the lengthening of the free list. This shortage will necessitate further increases on certain luxuries, and the committee intends to report some changes at an early date which it will ask the senate to adopt.

In discussing the revenue features of the bill Senator Aldrich insisted that as it will be amended by the senate the Payne bill will provide sufficient funds to meet the expenses of the government without resorting to any but import taxes.

If you have a sallow complexion, pimples, blotches, or dull eyes, your digestion is all wrong, and you should take Mi-o-na tablets immediately, and put your stomach right.

### EDUCATIONAL CAMPAIGN.

Some months ago State Superintendent Crabb instituted an educational campaign which did much to arouse our people to their needs in this line. Another campaign will be started the latter part of June which will be more comprehensive. One special worker will be appointed in each county and sixty speakers will do the talking each of which will devote a week to two counties. Meetings will be held in the country at which the people will be asked to bring their dinner and spend the day in talking over the best methods for improving the schools.

## SENATORS MAKE BIDS FOR FAVOR

### Draw Up Tariff Measure to Please the Masses.

## FARMER NOT FORGOTTEN

Bill as Framed by Finance Committee Will, According to Aldrich, Provide Sufficient Revenues to Meet All Demands—Downward Revision on Necessities Leaves Large Deficit to Be Wiped Out by Further Increases on Luxuries of Life.

Washington, April 13.—The amendment to the tariff bill is now on the senate calendar, and by an agreement reached on the floor, consideration of the measure will begin on Thursday. The bill was laid before the finance committee, with the Democratic members present, and after 30 minutes' parleying, a vote was taken on the question of making a report to the senate, all of the Republicans voting in the affirmative and the Democrats in the negative. Soon after the senate met Senator Aldrich presented the amended bill. Senator Daniel on behalf of the minority protested that the Democrats had not been given an opportunity to examine the measure, and Mr. Aldrich replied that they could make their examination by Thursday. He stated also that as the majority is responsible for the bill, its course in hastening the report was warranted.

As reported the bill does not contain all of the changes in rates which the finance committee proposes to make. Although several important amendments, such as the restoration of the Dingley rates on women's gloves and hose, the placing of works of art on the free list and the assessment of a duty on iron ore have been made, the revenue producing possibilities of the bill are little changed. The increases are provided mainly in the schedule covering luxuries, the entire liquor schedule being materially advanced. The increase in wines and spirits is expected to bring in about \$3,000,000 additional revenue. Senator Aldrich stated that the committee realizes that the increases thus far recommended will not be sufficient to counterbalance the loss in revenues that will result from the reductions and the lengthening of the free list. This shortage will necessitate further increases on certain luxuries, and the committee intends to report some changes at an early date which it will ask the senate to adopt.

In discussing the revenue features of the bill Senator Aldrich insisted that as it will be amended by the senate the Payne bill will provide sufficient funds to meet the expenses of the government without resorting to any but import taxes.

No maximum and minimum provisions or administrative features which include additional forms of taxation were reported in the bill. These sections of the measure are to receive the joint consideration of the Republican and Democratic members of the finance committee, and may not be reported for three weeks or more. Several of the revenue features are dependent upon the action which the committee will take in regard to these sections. Besides the dutiable and free lists, the only additional provision of the Payne bill reported was the Philippine free trade provision.

While not changing the purpose of the Philippine section, the committee's report included a new draft of this provision by which its successful operation will be assured. It had been suggested that the provision for the free entry of 300,000 tons of sugar and 300,000 pounds of tobacco would permit the importation under these limitations of products from neighboring islands through their importation into the Philippines. This danger has been eliminated by making these products dutiable when imported into the Philippines.

Changes were made in the cotton and wool schedules of interest largely to the manufacturers of cotton and woolen cloths. The action of the finance committee in maintaining the high rate of duty which it placed on the free list, the Dingley bill was under consideration and which now stands in the present law, will undoubtedly reopen the controversy on the wool schedules.

By restoring the Dingley rates to barley and barley malt, and by reducing the taxation on the breakfast table by cutting down the duties on coffee substitutes and placing cocoa on the free list, the senate amendments to the Payne bill present a bid for popular favor. The numerous increases in the agricultural schedule, intended for the protection of the American farmer, and provided for among the amendments largely through the efforts of Senator McCumber, a new member of the committee from the west, were framed with a view to gaining favorable criticism.

## RUSH TO SECURE LANDS.

Caused By Work on Survey For New Railroad in Eastern Kentucky.

BEATTLEVILLE, Ky., April 13.—A surveying party of seventeen Knoxville, Tenn., engineers are busy in Eastern Kentucky surveying a route for a new railroad, which is proposed to extend from Beattleville through Lee, Owsley, Clay, Knox and Whitley counties and on to Knoxville, Tenn. The party has reached Sexton's Creek in Owsley county and expect to arrive at Beattleville about May 1, completing the work.

Owing to the prospects of the new road there is much activity in that section in securing leases on mineral and timber lands, one company having already secured leases on 45,000 acres along the proposed route.
